

DYPS-X/M Series Profile/WPC Special Crusher

DYPS-X/M系列型材、木塑专用破碎机

Normally crusher needs large crushing chamber to recycle larger size and quantity plastic. For this reason, Dyun specially designed the DYPS-X/M series profile / WPC crusher. The feeding hopper, which is almost parallel to the ground, makes feeding of longer materials extremely simple and convenient. Because the rotor of the machine can automatically grasp the material to-be-broken, there is no material blockage.

常规的破碎机，通常需要较大的破碎腔来破碎回收体积较大，数量较大的材料。为此大云特别设计了DYPS-X/M系列。几乎与地面平行的喂料斗，使较长材料的喂给极为简单方便。由于机器的转子能够自动抓牢待破材料。因此，不会存在材料阻塞的情况。

型号 Model	投料口尺寸(mm) Feed Mouth Size	转子有效宽度(mm) Rotor Effective Width	电机功率(kw) Motor Power	动刀数(pcs.) Rotor Blade	参考产量(kg/h) Output
DYPS-X300	200×300	300	15	5	300
DYPS-M400	240×400	400	22	24	350
